

# Instructions to Fix Display Problems in Internet Explorer 11 for the Strategic Planning Task Force Website

(Issue: Compatibility View settings)

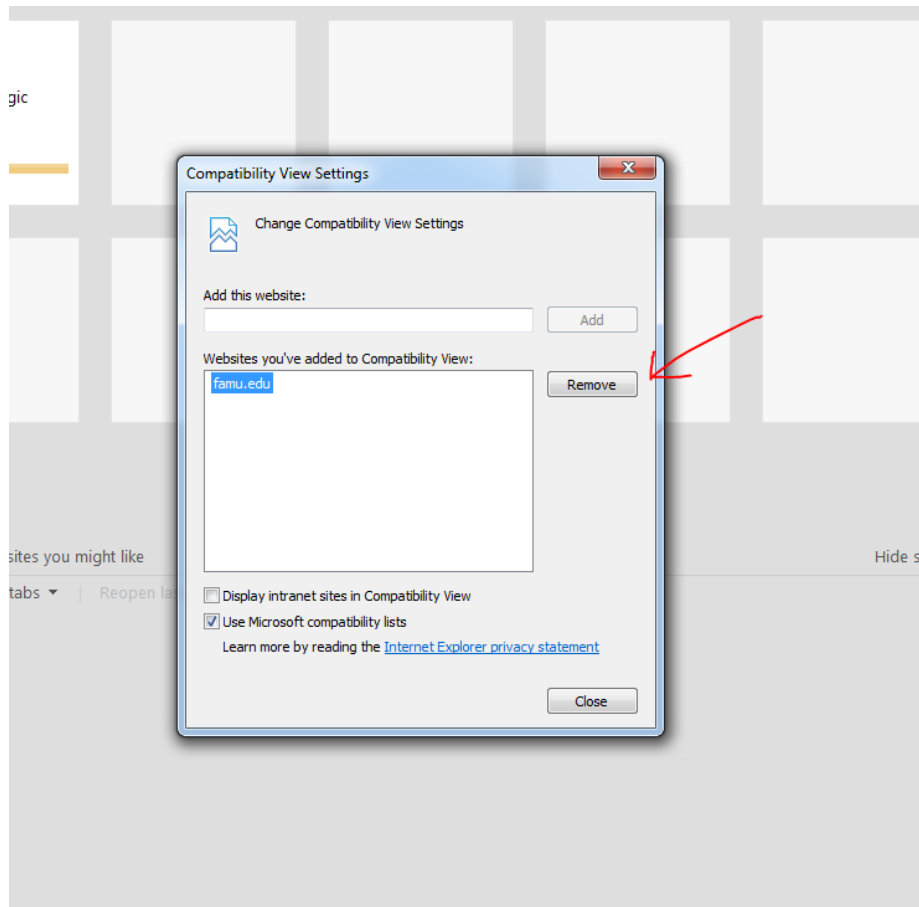

To view the Strategic Planning Task Force website <http://strategicplanning.famu.edu/> in Internet Explorer 11, please ensure “famu.edu” is not added to the Compatibility View settings. If it is, the website will not show properly.

To remove the compatibility view for Strategic Planning Task Force website, please follow the listed steps:

1. Open Internet Explorer 11 browser, then press the Alt key.
2. On the Tools menu, click Compatibility View settings. You will view a screen as shown below:

3. You may have famu.edu in the box below "Websites you've added to Compatibility View:" Select "famu.edu" and then remove it.

4. Click Close.

Now, please restart your browser and then access the Strategic Planning Task Force website which should displayed properly.
